About Me

Creative and detail-oriented UI/UX & Web Designer with 3+ years of experience designing intuitive, user-first websites and mobile applications. I specialize in building responsive and accessible digital experiences that are optimized for performance, usability, and inclusion. Proficient in Figma, Tailwind CSS, Bootstrap, HTML, CSS, jQuery, and Adobe Creative Suite. I care deeply about creating designs that work for everyone, including those with diverse needs and abilities. I also use modern AI tools like ChatGPT, UX Pilot, and Builder.io to streamline design systems, content workflows, and front-end delivery.
